

V-710DM Inserter Feeder

Overview

Streamfeeder's V-710DM Replace-A-Station Inserter Feeder combines flexible performance with superior feeding capabilities to precisely separate, singulate, and present many types of products and sizes to the gripper jaw of "Large Format/ Jumbo" swing arm inserters. A large capacity hopper is designed to be loaded from the front or rear. The clutch-free motor provides long, dependable performance.

The V-710DM can also be used to feed products continuously.
